<Question>

What should you do with your pet when evacuating?

- A. Take them to the evacuation center
- B. Leave them at home and evacuate alone
- C. Set them free and return them to the wild

When a disaster occurs, it's important to protect your pet as well. Prepare emergency food and water for your pet in advance. Don't forget pet medicine and toilet supplies. To avoid your pet getting lost, write their name and contact information on their collar, etc. If you're taking your pet to an evacuation center, you'll need a pet carrier or leash. When evacuating, make sure to take your pet with you and look after them properly, so be sure to be prepared in advance.

[Inquiries] Disaster Prevention and Crisis management Bureau 防災危機対策局 Tel: 0595-22-9640
